

AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the application:

LISTING OF CLAIMS:

1. (original) Assembly for collecting different goods comprising at least two feed conveyors for said goods, a collection conveyor extending at an angle to said feed conveyors, one end of which is arranged below said feed conveyors close to the discharge end thereof to receive the products therefrom and the other end of which is constructed to collect together said goods to form a pack, characterised in that said feed conveyors comprising containers for accommodating said goods and discharge means for discharging said goods on to said collection conveyor, said collection conveyor having, close to said one end, at least two separate transport lines arranged in parallel next to one another with a common drive for said goods, wherein close to said other end there is no such separation and means for moving said goods towards one another in a direction essentially transverse to said direction of transport are arranged close to said other end.

2. (original) Assembly according to claim 1, wherein said feed conveyors are provided with a buffer at the discharge end thereof.

3. (original) Assembly according to Claim 1, wherein said containers are open on least one side and have ejection means for sliding said goods out of said containers.

4. (original) Assembly according to claim 1, wherein the direction of transport of said goods at said discharge end on the feed conveyor is essentially perpendicular with respect to the direction of transport of the products at said one end of said collection conveyor.

5. (original) Assembly according to claim 1, wherein said common drive comprises bars (11) located some distance apart, wherein a space for accommodating goods is delimited between every two bars.

6-9. (canceled)
